

Journal - Office of Legislative Counsel
Wednesday - 25 October 1967

Page 3

25X1 8. [] GLC) Mr. Doug Baldwin, in the office of
25X1 Senator Clifford P. Hansen, called and asked if we could locate []
25X1 [] responses to the second attack
in the Gulf of Tonkin. []

25X1 9. [] GLC) Made arrangements with Colonel Glenn
Smith, Senate Preparedness Investigating Subcommittee staff, for Mr. Dave
Brandwein and myself to meet with him tomorrow to brief him on the []
system. In the course of our conversation, Colonel Smith mentioned the
Director's appearance before the Military Applications Subcommittee on
8 November. Colonel Smith said he was handling this and would like to
discuss it with us tomorrow.

25X1 10. [] JSW) The Director met in separate sessions with
Representative Frank T. Bow and Representative Glenard Lipscomb. As a
result of these meetings, the Director asked me to make arrangements for
him to see Senator Russell.

25X1 11. [] JSW) Talked with Mr. Robert Michaels, House
Appropriations Committee staff, who indicated that Representative Lipscomb
had wanted some information on the characteristics of the missile that sunk
the Israeli destroyer. Apparently he was curious as to whether this was
similar to the armament carried by the North Vietnamese torpedo boats
recently sunk by U.S. forces.

25X1 12. [] JSW) Talked with Representative William H. Bates
who indicated he was concerned that we had not met with the Subcommittee
recently. He mentioned several subjects he would like discussed. First
was the Philby case and then he mentioned the [] cases.
I gave him the general picture on all of these cases.

25X1 13. [] JSW) Talked with Mr. Woodruff, Senate Appro-
priations Committee staff, who advised that the joint letter from Senators
Hayden and Russell to the Comptroller General had been signed and was being
forwarded today. He indicated he had not worked with Senator Mundt on a
recent letter to the Director. We will discuss this further tomorrow.
